

CHAIN SPRAY

Fully synthetic chain and rope oil with high-quality anti-corrosion and anti-wear additives. Suitable for high and low temperatures. Reliable protection for components, even under extreme loads.

PROPERTIES

- Fully synthetic chain and rope oil with corrosion and wear protection additives
- Suitable for high and low temperatures (up to approx. +200 °C)
- Reduces friction and ensures long service life
- Excellent penetration with strong adhesion and pressure resistance
- No resin build-up, coking, and sticking

AREA OF APPLICATION

- Lift-, drive and conveyor chains
- Ropes and cables
- Spindles and gears
- General drive and mechanical components

IMPORTANT

- Do not spray on an open flame or other ignition source.
- Wear protective gloves.

INSTRUCTIONS

Please read the full product information before use.

- Ensure surface is dry, clean, and grease-free
- Shake can well before use
- Spray evenly from approx. 20 cm distance
- Allow to act briefly after application
- Repeat if necessary
